Mr. and Mrs. J. Edward Marston celebrated their thirtieth wedding anniversary Sunday, May 15, at their home, Rocky Dundee Farm, Pleasant Ridge, above Norway Lake. The fun commenced Saturday night, when the "children" hung Mr. and Mrs. Marston a large Maybasket, in fact a huge peach basket, filled to the brim with useful articles. Several members of the family from North Norway, Mechanic Falls and Bridgton, came for the week end, these including Mrs. Flora Abbott, Mrs. Carroll Greenleaf and daughter, Ruth. Middledam Fishing Report

Our first fishing expedition of 1927 closed at Middledam on the evening of May 14. It proved to be similar to those of years past. We brought home one 3 lb. trout out of 25 caught. Three fish were used at the Dam, hence four were killed of a total weight of ten pounds. The balance of the catch was returned to the water, bearing our mark. One salmon weighing close to three pounds was taken that had previously been marked by us.

NEW PASTOR AT METHODIST CHURCH

The Rev. John Singleton, who was appointed by Bishop Shepard of Oregon at the recent Maine Annual Conference held in Lewiston, to the Norway Methodist Episcopal Church, was formerly pastor of the Methodist Church in Lowell, Mass., serving the church there for seven years.

He was General Secretary for his denomination for four years and District Secretary for two, While in Lowell, he was active in young people's work, chiefly Boy Scout and Christian Endeavor, being Counselor of the Lowell C. E. Union for three years and superintendent of the Missionary work for Middlesex County for the same number of years.

He received his early education at a private school in England and began preaching when only seventeen years of age, was known as the boy preacher, and served churches in Greystone, Manville, North Tiverton and Block Island, in Rhode Island; Lowell, Mass., Conway, N. H., and Kennebunkport, Me.

Mr. Singleton received his theological training at the Oscaloosa College and Taylor University of Upland, Indiana, and while located in Lowell, took up special work in Comparative Religions, at the Gordon Bible College of Missions in Boston.

Good congregations greeted Mr. Singleton at his first services, last Sunday, and a good impression was made.

The pastor's family consists of wife and son, John Wesley, who is finishing a post graduate course in the Kennebunkport High School and who will arrive in Norway about June 9th.

Y. P. C. U. CONVENTION

FISH DID NOT BITE

Allie Noble of the Noble & Noble Whitman Street garage visited South Arm the first of the week. Reg. Dinsmore, registered guide went along with him. They fished in the "Narrows" with half a dozen other boats and got no fish. Neither did the other brave fishermen.

They left Norway at 5 o'clock in the morning and returned in the evening.

Hello Girls' Annual Ball

Good sport and prize dances made the Hello Girls' annual ball in Norway Opera House a success, Tuesday evening. Melanson's Orchestra, six pieces, of Rumford, furnished music. Howard Shaw of South Paris was prompter.

This dancing party was arranged by the telephone operators of Norway-South Paris exchange and the girls had full charge of affairs from advertising to presiding in the box office and collecting pasteboards at the door. As in past years, the proceeds will be used for the rest room, which provides many conveniences for operators when off duty at the panels.

No elaborate decorations were attempted this year for all lines are too busy at the new central. There was bit of color given with baskets of flowers, potted plants, and a large fern around the stage front. Bridge lamps loaned by the Central Maine Power Co., aided the players in the orchestra and made the stage attractive.

Punch was served to the dancers, with the Misses Geraldine Paragard and Clara Adkins in charge.

Rumford was represented with a good sized delegation of young dancers while other adjoining towns furnished small quotas.

HIGH SCHOOL LEAGUE

Two teams shifted their percentages after the games in Oxford County High School League, Saturday.

On that day at Bethel, Gould Academy dropped to second place when South Paris held Parson Gould's outfit to a score of 11-6. The visitors out-hit the home team with ten singls, a double and a triple. Gould's made six singles. Gill of Bethel had an edge on Nutting of Paris in the strike-out department, making 16 whiff the air against 13 for Nutting. Errors were conspicuous. Score:

	R	H	E
So. Paris	2	0	0
Gould's	6	6	6

Norway lost to Stephens High School at Rumford on Saturday, score 4-3.

Norway out-batted the home bunch and Bickford of Norway fanned 9 while Holland caught 3 Norwayites. The game was hot and close with Stephens leading on a narrow margin from the start.

Score:

	R	H	E
Norway	3	7	5
Stephens	4	5	4

Rain caused a postponement of League games, Wednesday afternoon. Standing of the teams Thursday, is as follows:

	Games Won	Games Lost	Per Cent
South Paris	6	0	1.000
Gould's Academy	2	1	.666
Mexico	3	2	.600
Stephens	1	3	.250
Norway	0	6	.000

Obituary

Samuel Graham

The body of Samuel Graham was taken to Ottawa, Ontario, Canada, May 10th for interment. He had made his home at his daughter's, Mrs. George Batchelder's, Hazelhurst Farm, Norway Lake, for the past three years. Mrs. Bachelder accompanied the body to Ottawa to be laid beside that of his wife who passed away seven years ago. He is survived by one deughter, Mrs. G. M. Bachelder, of Norway, and five sons, Gilbert, Roland and Richard of Ottawa, Ont., William of Bakersfield, Cal., George of Detroit Mich., eight grandchildren and six brothers and one sister. He was 83 years of age.

FORTY AND EIGHT INITIATION FOR NORWAY

The 40 and 8, composed of World War veterans, will have a regular time in American Legion Home, Norway. Friday evening, May 27. They plan for a chow, a big street parade, and one of their famous initiations.

Dallas Benson and his freight car proclaimed the event Tuesday. This clever representation of a French box car is mounted on a Ford chassis lettered to tell this story "40 Hommes et 8 Chevaux Voiture No. 613, Oxford County." This car won the silver cup at the convention in Brunswick.

The big bomb on May 27 will explode with members from many Voitures present. The attack opens with a banquet at 6:30 and 7:15 p. m., after which all will fall in for a parade in Norway and South Paris. Arrangments are being made for the Kilties Band of Rumford or a bugle corps to head the procession. Probably the initiation of the "Poor goofs" will prove the most dramatic of any ever given in Norway. They generally do mighty funny stunts so the people should not be surprised at any ridiculous stuff the poor goofs may be forced to do.

Any member of the Legion, in good standing, may become a candidate by applying to Chef-de-Guerre W. G. Conary, Correspondent M. E. Prince, of to Chef-de-Train A. A. Walker, of Oxford.

The box car will be driven around the streets of the Twin Towns and Oxford, bringing to mind of ex-service boys the days when forty men were packed into car space allowed for eight horses.

BOWLING CHAMPIONSHIP IN DOUBT

The second candlepin game between Rumford and Norway to determine the Oxford County Championship, was won by the Recreation Alleys, Rumford. The home outfit knocked over 1,373 in three strings against Norway's 1318. Somehow the visitors fell below their average in the first string and failed to measure up to thir usual form. Everybody had a good time and the reception at Rumford was most cordial.

Little Charlie Thomas, who was in charge of Parrin's Pool Room in Norway some two years ago, is employed where the match was staged, so Norway had at last one loyal rooter.

As Norway won the first game played here, a neutral alley in Lewiston has been selected for the rubber game on Tuesday evening, May 24.

Following is the summary:

Norway High School

"SPRINGTIME"

The plot of "Springtime," which is to be presented at the Opera House on Thursday, and Friday evenings, May 26 and 27, under the auspices of the high school, is a most enjoyable manner. The first scene is in an old garden near New York in May, 1927. The occasion is the celebration of Priscilla Dean's (Mrs. Eva Evirs) twentieth birthday with a mardi-gras party. Her friends, Desiree (Evelyn Saleeby), Joyce, (Hilda Stineford), Sue (Mary Favor) and Elvira (Dorothy Anderson) ask Mrs. Elkins (Wilma Calef) to tell them the story of the romance of the Brewsters and the Wainwrights.

As Mrs. Elkins starts to speak, the lights are slowly dimmed, and she finishes her story the stage is completely darkened. A second later the lights come on again and the action of the play continues with a scene in the same garden in 1868. In this scene Horace Brown will appear as James Brewster, "founder of the famous Brewster's Pills." Thankful Standish, his sister, will be portrayed by Grace McAllister. The part of Priscilla Brewster, his daughter, will be taken by Mrs. Eva Evirs. Clara Adkins will handle the role of Primrose Standish, daughter of Thankful. Henry Favor will play Tim Higgins, of Boston. The part of Jack Wainwright will be in the hands of Gary Locke and Clayton Murch will be seen as Bobby Brewster, a lion with the ladies. Elvira Judd will be played by Dorothy Anderson, and Margaret Cummings is cast as Abigail Timpkins, a susceptible maiden.

In the second act, which takes place in 1888, little Priscilla, daughter of Priscilla Brewster Higgins, will be played by Rosalie Pike; Vera Tiggs by Beatrice Gallant; Daisy, who stutters, by Alice Lafrance, and Master Jack, son of "Wizard" Jack Wainwright, by Wilfred Conary. Mrs. Marguerite Bowser is cast as Zenobia, Bobby's wife.

In Act III, we find Phil and George, witnesses in the "ragtime jury trial," played by Richard Hoit and Roger Gates respectively. Parsons, Bobby's man will be played by Maurice Flint.

H. Stinefond, H. Favor, H. Brown and F. Rich received their debating letters at assembly Thursday, May 12.

Norway baseball team played Paris at Paris, May 11, and lost by two points. The score was 6-4.

The track team went to Fryeburg, on Thursday, May 12. The score was 50 1-2 to 48 1-2 in favor of Fryeburg.

The senior class voted to have Norton's Orchestra furnish music for graduation ball.

The baseball team went to Rumford, Saturday, May 4, and were defeated by a score of 4-3.

Tuesday morning the Junior Class in Agriculture were up with the birds and held their class with their instructor, before breakfast. They went to the A. W. Walker farm in Millettville and learned the principles in dusting all sizes of apple trees. A power duster was used, belonging to Elgin Greenleaf, who helped to operate the duster. About 250 trees were dusted for the pre-pink dust. Much credit should be given the boys who took part in this demonstration.

Friday of last week the freshmen and junior classes took up the study and actual work of caponizing cockerels. Wednesday of this week was also devoted to this work.

The Oxford County Shorthand and Typewriting Contest was held at Norway High School, Saturday, May 14. Pupils from Rumford, Mexico, West Paris and Norway competed. Fryeburg Academy was obliged to withdraw the day before the contest on account of an epidemic of German measles.

There were three classes in typewriting and one in shorthand. The typewriting consisted of Class C; those pupils who had taken typewriting one period a day since September, 1926; Class B, two periods a day, or its equivalent, since September, 1926; Class A, advanced pupils, post graduates excepted. The shorthand was new material dictated by Miss Agnes Craig of the Maine School of Commerce, at the rate of 80 words a minute.

A first prize of $3.00 and a second prize of $2.00 were given to the winners in each class, and a cup was awarded to the school winning the greatest number of points. We are indebted to the following business houses for the prizes and the cup: Fred S. Brown, Norway Advertiser, Jackson & Greenlaw, Norway Shoe Company, L. M. Longley & Son, Norway National Bank, Novelty Turning Co., Donald B. Partridge.

The results of the contest are given below:

I. Peter Healing the Lame Man (Acts 3:1-10).

1. The place (vv. 1, 2).

Peter and John were on their way to the house of worship. This man had been placed at the entrance of the place of worship where he might receive the sympathetic attention of worshipers.

2. The man (v. 2).

This beggar was infirm from his birth. He was now more than forty years old (4:22) and had brought his ailment with him into the world. When he saw Peter and John he asked alms.

3. The method (vv. 3-8).

(1) The man's attention gained (v. 4).

Peter and John commanded him to look on them.

(2) Peter commanded him in the name of Jesus Christ of Nazareth to rise and walk (v. 6).

(3) Peter took him by the right hand (v. 7),

This was meant to give impetus to his faith—not strength to his ankles.

4. The man's response (v. 8).

Strength came to his feet and ankle-bones at once. He stood, he walked, he leaped and shouted praises to God.

5. The effect (vv. 9-11).

The people were so filled with wonder and amazement that they ran together to behold this wonderful thing.

Note:

(1) This helpless beggar had to be carried to the temple gate. Men and women out of Christ are so helpless that they need to be brought where the light of God can be applied to them.

(2) Peter taking the man by the hand shows the manner of helping the lost.

II. Peter Witnessing Before the Multitude (2:12-26).

Though this miracle directed the attention of the people to Peter and John, Peter immediately turned their attention from himself to Christ. He told them that it was faith in Jesus Christ whom God had glorified and whom they had deliberately betrayed and crucified that had healed this man.

III. Peter in Prison for Christ's Sake (4:1-4).

It was his fidelity to Christ that brought him this persecution. Observe:

1. The leaders—priests and Sadducees—in this persecution (vv. 1, 2).

The priests were intolerant because these new teachers were encroaching upon their functions.

2. The result (vv. 3, 4).

Though they were held in bondage by chains, Christ continued to work. The number of believers had greatly increased.

IV. Peter Witnessing Before the Sanhedrin (4:5-21).

1. The inquiry (vv. 5-7).

This inquiry admitted the reality of the miracle. They wanted to know what it signified.

2. Peter's answer (vv. 8-12).

Being filled with the Holy Spirit, Peter calmly and graciously answered. He showed them that they were not on trial as evildoers but for doing good to the helpless and needy man. Since they could not deny the miracle he boldly declared that it had been done in the name of Jesus Christ whom they had crucified and God had raised from the dead.

3. The impression upon the Sanhedrin (vv. 13-22).

(1) They marveled (vv. 1-13).

They saw that Peter's behavior and words were as unusual as the miracle.

(2) They took knowledge that Peter and John had been with Jesus (v. 13).

(3) They forbade them to speak in Christ's name (v. 18).

(4) Peter and John's reply (vv. 19, 20).

They expressed their determination to obey God rather than men.

(5) Their release (v. 21).

Seeing the people were on their side, there was no way to punish them.

V. The Church at Prayer (vv. 23-31).

As soon as Peter and John were set free, they hastened away to their fellow disciples and told them their experience. They praised God for deliverance and prayed for boldness to speak the Word of God.

Mrs. Willard A. Brett Dead—Everett York in Portland on Jury—Peeling Pulp and Cutting Wood.

The community was deeply saddened Monday, May 16, when Ruth M. Brett, wife of Willard A. Brett, was called to the Great Beyond. She had been confined to her bed for about a year, although her heath had not been good for a long time. Mrs. Brett was a very patient sufferer, never complaining, but always looking on the bright side of life. When her health permitted, she was a regular attendant at the Grange, where she contributed freely and cheerfully of her time and talent. Her sweet, gentle face will be greatly missed, but it will ever be a pleasant memory to her neighbors, as well as her large circle of relatives and friends.

Carl Ahonen has finished work in the shoe shop at Norway and is peeling pulp for his brother-in-law.

Claude Thomas has taken a job peeling pulp for W. A. Brett.

Mr. and Mrs. Norman Annis visited friends at East Stoneham, Sunday.

Frederick Robie Grange held its regular meeting, Saturday evening, with a good attendance. Two applications for membership were read.

Ralph Merrill has recently carried two truck loads of hogs and calves to Auburn.

Ralph Sturgis has several men cutting wood and yarding the wood fom his lot, which is known as the Roscoe Hill lot.

Visitors at Sanford Annis', Sunday, were: Mr. and Mrs. Herbert Bradbury and family and Mr. and Mrs. Walter Annis and daughter.

Everett York is serving on the jury in Portland.

Irene Kyllonen is visiting her aunt, on Frost Hill.

Overdoing?

Hurry, Worry and Overwork Bring Heavy Strain.

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs, especially the kidneys, are apt to become sluggish. Retention of excess uric acid and other poisonous waste often gives rise to a dull, languid feeling and, sometimes, toxic backaches and headaches. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions. More and more people are learning to assist their kidneys by the occasional use of *Doan's Pills*—a stimulant diuretic. *Ask your neighbor!*

Studebaker Commander

set ten world records by traveling 5000 miles in less than 5000 minutes-

BUT-

What does it mean to You?

OF COURSE, you don't want to go 5000 continuous miles at better than a-mile-a-minute. But this sensational performance proved by the most brutal test ever recorded, that anything any ordinary driver wants in speed and endurance, is child's play to THE COMMANDER.

Never before has any stock enclosed car in the world achieved such a maximum of miles in such a minimum of minutes.

33 Million Engine Explosions

To the ear, only a sound like the wind whisking through a grove; to the eye, only a fast moving bulk with contour dulled by its terrific speed . . . But within the six cylinders of The Commander's mighty engine—a fusillade of red hot explosions—over thirty-three million of them during the run! Connecting rods plunged upward and downward about eleven million times, wheels revolved over three million times.

Despite this ordeal, mechanical repairs were limited to three grease cups (damaged by hasty greasing) and a spark plug!—negligible when you consider that this astounding performance is equivalent to 25,000 miles of ordinary going.

Let Harry Hartz—America's Champion Driver—tell you out of his own experience what a stock COMMANDER will do.

Harry Hartz Says:

"It will maintain any given speed up to sixty-five miles per hour, longer, more smoothly, and at less expense per hour traveled, for gasoline, oil and repairs, than any other stock automobile now being built in the United States."

Figures Which Show the Strain of 5000 Miles in 4909 Minutes

Total of 33,000,000 explosions in the engine!

More than 1,100 explosions per minute in each cylinder; equivalent to more than 18 per second! About 7,000 explosions per minute in the six cylinders!

11,000,000 strokes of each piston!

9,200,000 feet, or about 1750 miles, traveled by each piston!

3,330,000 revolutions for each wheel!

This is what an engine must do to travel 5000 miles—but more than a thousand Studebaker cars have been driven 100,000 to 500,000 miles—and many of them are still in service!

Because of its super-abundant power, The Commander will perform eagerly, easily, smoothly—with no labor or effort—any and all tasks placed upon it.

Studebaker has produced in these new models, cars which will excel even the staunch dependable Studebakers of the past in low repair and maintenance costs.

It is now possible to purchase a truly great automobile at a moderate price! The Commander is justly known as "the greatest post-war achievement in automotive engineering."

Get Behind the Wheel

But drive THE COMMANDER yourself and draw your own conclusions—get behind the wheel that'll put you ahead of everything on the road—step on the throttle and feel the thrill of outstepping competition—or test it in traffic for flexibility of handling—any old rate of travel suits THE COMMANDER—it is both gentle at town speeds for a woman and a giant at top speeds for a man!

More Records!

Take the combined totals of all other cars in the world of equal or greater rated horsepower, and the Studebaker Big Six outsells them!

Take all the Eights in the world, as well as all the Sixes, selling for less than $2500, and the Studebaker Big Six Commander out-performs and outlives them!

And take all day long for a real demonstration.

See It and Drive It TODAY!

An exact duplicate of the champion COMMANDER is ready for you and 'rarin' to go! What Harry Hartz' Commander did, any Commander will do!

At No. 2 Tobey St., Augusta, Me., lives Mrs. William Moody, well and favorably known to a large circle of friends. Fragile from childhood, always ailing, she never dared hope for robust health. Here is her story in her own words: "As long as I can remember, I have been puny and sickly. My parents did all they could when I was a child to strengthen my constitution. But puny I remained. I never expected to be otherwise.

"My husband's marvelous recovery from three years of wasting illness encouraged me. If Tanlac could do so much for him, why not for me? So I gave it a fair trial. I really did not expect more than a temporary relief. But what it actually did was to rebuild my system entirely. From 98 pounds I gradually grew to 151 lbs. and right now I feel peppier and stronger than ever I had dared hope.

"Tanlac alone is entitled to the credit for that astounding change. My husband and I both recommend it from first hand experience of its surprising results."

"Had Never Dared Hope for Such Rosy, Rugged Health"

Respected Augusta matron tells life-long fight for health. Puny and fragile from childhood, sees husband helped to health by Tanlac and tries it. Gains 53 lbs. Robust at last, thanks Tanlac

At No. 2 Tobey St., Augusta, Me., lives Mrs. William Moody, well and favorably known to a large circle of friends. Fragile from childhood, always ailing, she never dared hope for robust health. Here is her story in her own words: "As long as I can remember, I have been puny and sickly. My parents did all they could when I was a child, to strengthen my constitution. But puny I remained. I never expected to be otherwise.

"My husband's marvelous recovery from three years of wasting illness encouraged me. If Tanlac could do so much for him, why not for me? So I gave it a fair trial. I really did not expect more than a temporary relief. But what it actually did was to rebuild my system entirely. From 98 pounds I gradually grew to 151 lbs. and right now I feel peppier and stronger than ever I had dared hope.

"Tanlac alone is entitled to the credit for that astounding change. My husband and I both recommend it from first hand experience of its surprising results."

Thousands of citizens in every state of the Union have won renewed health and vigor with Tanlac. If you're run down from overwork, worry, or neglect, start building your way back to normalcy today. Get a trial bottle of Tanlac from your druggist. It is nature's own remedy made from herbs, roots and barks, according to the famous Tanlac formula. Over 52 million bottles sold.

The Doctor

By Don C. Seitz

(Form the Outlook)

My life-long friend, the Doctor is dead. He slipped from his office chair while listening to the troubles of a patient, and so stepped as briskly out of life as he had made his way through it. He died in the little Maine town where his father was born, and where he had grown up, though venturing now and then to other parts. "Physician and Surgeon" were the words on his sign. He was both.

Yes, he was both and more. Few men developed greater skill with the knife; few could better cure with pills and potions. Beyond this he knew how to conquer nerves, rid the mind of fear, and restore confidence in his patients. He did all this with frankness; told the truth but in such a way as to make it welcome. "Fix me up" became a byword among those who came to him. He usually did.

Somehow he never seemed to sleep and was seldom idle. When no ills demanded his attention, he read, played a bit on the flute, and even tinkled a piano; he sang—not well, but stentoriously. Music always interested him. He attended the festivals and encouraged the art on all occasions. He was also a "joiner"—belonged to everything except the church. I recall his disturbance when a promised Order of Red Men failed to materialize. He had looked forward to its mysteries with deep anticipation, and felt keenly disappointed.

Military life appealed to him. He became surgeon in the National Guard of his State; went with it to the Spanish War, though never getting nearer the firing line than Chattanooga, where forty-six of his men died under other hands, while he was transferred to hospital service on Lookout Mountain. The Government gave him one fever thermometer for 300 men. He rode on horseback to Chattanooga and bought the local stock—seven in all. The Medical department nearly court-martialed him for this irregularity. He could get no nurses, and the chaplains would not climb the mountain to console the dying.

Flies blackened the faces of the sick men. He could get no wire screening. One day a gorgeous Medical Staff came to dine. He served a beefsteak a la hospital. It was hidden under insects. The sight so upset one delicate doctor that he "threw up" his breakfast. After that screening came. Also a reputation that took him to Cuba where he built a hospital at Mariana. Then he came home.

His practice prospered; his reputation grew. The world was bright before him. Then the Great War broke. In the beginning it was none of his troubles, but he heeded Mabel Boardman's call and went with the Red Cross to Germany. Given charge of a unit, he was sent in October, 1914, to Cosel, in Silesia. He was unwelcome. A hotel was set aside for his nurses. He found it occupied by the mistresses of German officers. These he expelled. He was not allowed to use his own Red Cross supplies. To top this a poster was placed on the wall of every ward by which it was verboten for any operation to be performed without the presence of a German army doctor.

There came from the Russian front a fair young German badly afflicted with gangrene. At times a vein would break in the offensive flesh which would have to be taken up. One day this happened when the Doctor was alone in the hospital. A nurse summoned him in haste. The lad was a great favorite.

"Where is the Herr Doctor?" he asked. No one knew.

"Find him," he said. Then he took the soldier's pulse, throbbing weaker with each stroke as the blood dripped from the broken vein. It indicated thirty minutes of life.

He went outside and sat down on the hospital steps. Soon the head nurse ran out.

"Are you not going to operate?" she queried.

"Not without the Herr Doctor."

He lit a cigar. Nurse after nurse ran out begging him to act. He shook his head. Messengers were sent scurrying and telephones were kept busy, but seemingly without results. The nurses were in tears, the patient all but unconscious.

At the end of twenty minutes a junior German surgeon came in, breathless. The Doctor rose from his step, sliced off some "proud flesh" and tied up the artery. Strangely enough the boy got well.

The affair made a great stir.

"Was it your purpose to let the man die?" asked the chief German surgeon.

"It was my purpose to let the man die."

"And why, Herr Doctor?"

"Because of the sign on the wall."

Berlin heard of the episode, and the Prince de Sagan, a civilian supervisor of hospital work, came to Cosel for first hand information. When he heard the facts, he slapped the Doctor on the back.

"You have taught these bureaucrats a lesson that they richly deserve" he exclaimed. "The signs shall come down."

Down they came. So did all other restrictions. The supplies were taken from storage and put to use. Insults ended. The Doctor was master of Cosel until death in his household ordered him home.

Soon he was in the American Army again, but not to stay. Hard service had brought on excessive blood pressure. He was relieved and sent home. Here he cheerily took up his practice as everybody's physician and surgeon, with the certain knowledge that the next moment might be his last. It did not come for a decade.

When he fell from his chair, the whole town and much of his native State mourned. A bugle blew taps over his grave. Little children wept when they knew the good Doctor was gone, to be with them no more. It had been given to few men to mean as much to the community as he.

Who was he? you ask: Dr. Bial F. Bradbury, of Norway, Oxford County, Maine.

LOW RATES for time payments on these cars

ANY FAMILY entitled to credit may buy a General Motors car and pay for it while using it, under the GMAC Plan.

When time payments first became an accepted form of car purchase, General Motors organized its own finance company, the General Motors Acceptance Corporation, to make sure that the sale of its cars on time would be in the buyer's interest and that the finance charges would be fair.

GMAC rates have always been low; and the last reduction has saved General Motors' customers more than $12,000,000.

The General Motors line includes "a car for every purse and purpose"— a suitable model for every income. You can buy it out of income, paying no more than the cash delivered price, plus *only* the low GMAC financing charge. And the whole transaction is so conducted as to keep your goodwill and satisfaction.

CLIP THE COUPON

USE THE GMAC PLAN to enjoy a new car *now*. Use it to get a *better* car for what you plan to spend. Have General Motors quality. Share in the economies of volume production. Disturbed Sleep

Caused from Bladder Irritation is Nature's Signal of "Danger Ahead"

Joseph Dow, R. 55, Trenton, N. J., says: "My rest at night was disturbed 10 to 20 times. Lithiated Buchu has reduced this and entirely relieved me of that terrible burning and smarting. I was told there was no help for me. I want others to know and will tell or write my experience."

Lithiated Buchu is not a patent medicine. The formula is on the package. It acts on the bladder as epsom salts do on the bowels. Drives out abnormal deposits, lessens excessive acids, thereby relieving the irritation which causes "disturbed sleep." Keller Laboratory, Mechanicsburg, Ohio. Sold at all drug stores. Locally at L. V. Ashton's, druggist.

See That Beater!

It's mounted on the axle—that's why the John Deere is easier on you, easier on your horses, does better work and lasts longer.

There are more John Deere spreaders in use in most agricultural territories than any other make. There is a reason. The beater-on-the-axle construction has made possible the only vital improvements in spreader construction since the first commercially successful spreader was built in 1878. The John Deere gives you spreader advantages that have been needed for years.

JOHN DEERE SPREADER

The patented beater construction gives you these distinctive advantages:

1. A box 6 to 10 inches lower than others—much easier to load.
2. High drive wheels—4 to 8 inches higher than others—gives extra traction—extra power. Load moves back to beater on rollers—saves the horses.
3. The simplest spreader built—no clutches, no chains, no adjustments for you to make—reduces repair bills—the spreader lasts years longer.
4. Beater close to ground—does not throw manure high in air—winds do not cause drifting of manure—does better work. Patented revolving rake prevents bunching.

Come in and see this better spreader—there are many other features on it we want to show you

Firestone Dealers

The Mark of Quality

Have Purchased 100% More GUM-DIPPED TIRES

[This Year Compared With Same Period Last Year]

THE demand from car owners for Gum-Dipped Tires has given Firestone Dealers a large increase in volume enabling them to sell these tires to you at the lowest prices in history.

On the cars of motorists everywhere, these wonderful tires are delivering unheard-of long mileage with greater safety and comfort.

The Firestone Balloon Tread, scientifically designed three years ago, and unchanged today, follows the contour of the tire carcass with no excess rubber at the edges to cause "shoulder breaks". Narrow rider strips permit the tread to yield to depressions and cling to the road, preventing skidding. This tough, pliable tread has the wear-resisting qualities for thousands of extra miles.

Such a tread must be placed on a carcass with the qualifications to withstand the terrific flexing that this design permits. The Firestone carcass is made of cords dipped in a rubber solution which not only saturates and insulates every fiber of every cord, but unifies sidewalls with carcass, avoiding separation under the extreme flexing.

Many Firestone Dealers are prepared to offer you a liberal allowance for your old tires, on a new set of Gum-Dipped Tires to start the motoring season.

To meet a demand for a low price tire and tube, Firestone designed and manufactures, for Firestone Dealers only, Oldfield Tires and Tubes, which carry the Standard Manufacturers' Guarantee.
